Try them for yourself! Instantly recognizable value! With all the latest of electronic technology at our disposal, our customers are assured of more of the best to come!

EXPAND THE WORLD of PLAY

STANDARD TYPE

These Machines Are Uniquely Suited For Any Market !

RED BAR

5 LINE PAY

NO.1 PROFIT MAKER!

With its sturdy appearance and attractive style, "Red Bar" will easily be the most player pleasing slot machine in any location—it will become the "King of the casino" in a very short time!

Coin check

All inserted coins are strictly checked for direction and passing time, so that slugs are rejected. Additionally, players can read the number of coins dropped during the game in progress and coins dropped during the preceding game—both are displayed at the same time.

Self-test

A variety of test programs are carried out automatically. In the event of any trouble, cause(s) and/or location(s) of malfunctioning modular section(s) are displayed.

Error code display

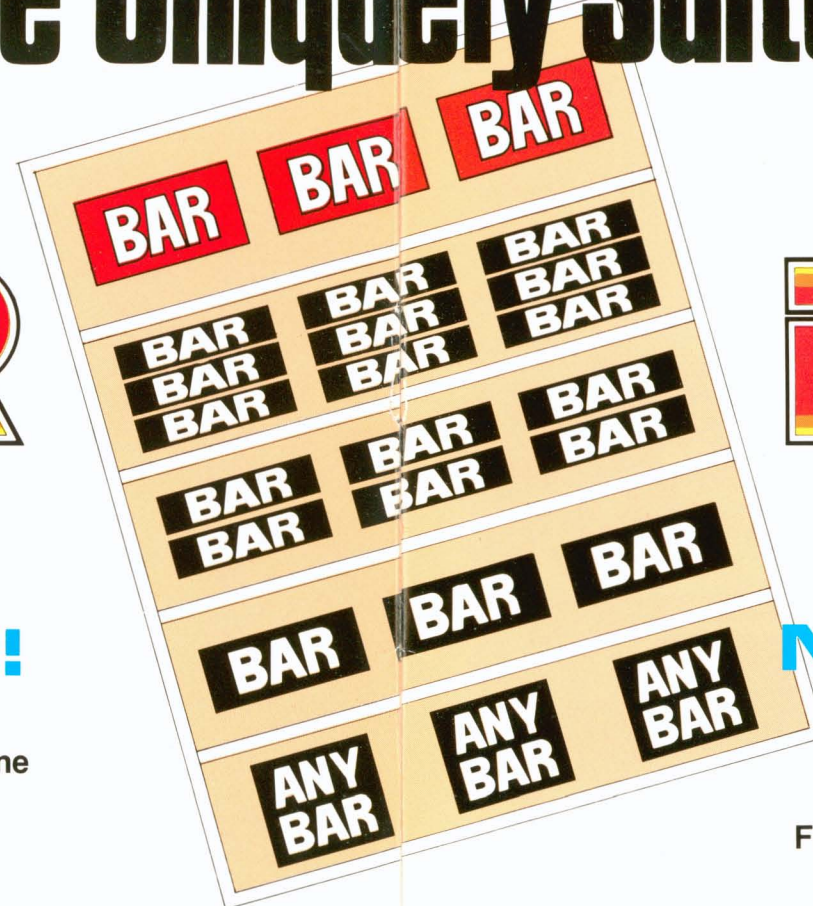

Continuous checking of all internal working parts! When a malfunction is detected, the TILT lamp flashes on and the exact cause(s) or location(s) of such trouble are displayed by error code on the "Winner Paid" meter.

Meter reading

Without opening the front door, "Red Bar" provides a wide range of data. All machine movements are simply and easily monitored.

100/115/120/220/240V AC 50/60Hz 180W

RED BAR

5 COIN MULTIPLIER

NO.1 PROFIT MAKER!

"Red Bar" will captivate casino fans regardless of what country it is used in, and will quickly become most popular slot machine. Fully equipped with many attractive features and functions, it will become an instant favorite!

Coin check

Each inserted coin is carefully checked and slugs will be rejected.

Self-test

An automatic 7-item test program can be conducted any time. Accuracy of all modes is thus ensured—diagnosis at your fingertips!

Error code display

The machine constantly conducts its own functioning checks. The TILT lamp lights when any malfunctions are detected and they are displayed. The error code indicates the exact cause(s) and/or location(s).

Meter reading

Without opening the door, "Red Bar" provides detailed data on many functions. Thus, all machine movements and details of operating conditions are quickly and easily determined.

STANDARD TYPE

Megaton Attractiveness !!

DYNAMITE

NO.1 PROFIT MAKER!

A super slot machine with a dynamic "personality". Players will not be able to escape the lure of "Dynamite".

■ Play 1 to 5 coins

Up to 5 coins can be inserted, and by increasing win lines, you can aim at a jackpot of up to 2,000 coins.

■ Pays left to right or right to left!

One of the most attractive features of "Dynamite".

■ Double the direction of pay.....

■ Double player excitement!

■ Coin check

Each inserted coin is carefully checked. Additionally, players will know at all times how many coins they have inserted—the number is displayed for the game under way, together with the number of coins dropped during the preceding game.

■ Self-test

An automatic 7-item test program can be conducted any time. Accuracy of all modes is thus ensured—diagnosis at your fingertips! Additionally, error code display, meter reading and other useful programs are built into "Dynamite".

POPULAR MACHINES

for Europe

AMERICANA MARK V

1 credit—1 win line.

When a lucky chance appears, the "Bonus Line" display lamp lights up and 1 bonus line or 2 bonus lines are additionally provided, so that 3 win lines may be judged.

If the "HOLD" display lamp lights when a coin is dropped, a lucky chance will be awarded. When a symbol by which a big win can be attempted remains on the win line, its reel can be stopped by pressing the "HOLD" button.

Gamble feature

When 3 oranges or 2 oranges and 1 bar appear on the win line or a bonus line that has become effective, players can gamble. Numeric lamps on the score card flicker, so, press the "ADD-UP" button by timing it to a large score numeric lamp. Increase the score step by step until you get an opportunity to use "Skill Stop".

"Skill Stop"

When 3 "Skill Stop" symbols appear on the win line or a bonus line that has become effective, the largest opportunity is awarded! Pull the handle without using credits. Reels will rotate slowly, so stop the reels by pressing the stop button aimed at the highest win combination.

100/115/120/220/240V AC 50/60Hz 180W

*High Profit
for Low Price!*

El Toro incorporates the latest technological knowhow and extensive mechanical innovations, all of which are microprocessor controlled! A development of many years of accumulated experience—a product developed due to user requests and development orders.

The art work features many illustrations so that players can enjoy slot machine games at their best! Anywhere! Remarkable atmosphere!

A 20p coin credit system. As long as you have credits on the credit meter, you can start a game any time by pulling the handle. Coins are paid out for all win combinations, and the number of coins is displayed on the win meter.

[Game features]

All jackpots are accompanied by the jackpot win sound and a call attendant lamp is flashed—the machine is locked to prevent tampering.

Independently of win lines, when a **matador** symbol appears in the reel window, a “scattered win” is awarded and coins are paid out according to the number of symbol(s).

■ Coin slot

The coin slot size can be simply adjusted to any coin size available—thus it is ideal for use in casinos in any country.

The "Americana" which is already on the market is a favorite of those playing slot machines.

The slot machines which are listed in this catalog, are units which have been developed drawing on our experience with the "Americana", and incorporate new exciting features and improvements.

These new machines will be an instant hit and win the heart of both players and owners! Expect a boom in play with these machines!

■ AMERICANA BONUS WIN

A deluxe version of the conventional Americana, the "Americana Bonus Win" has additional innovative features and is more sturdily constructed.

■ AMERICANA-15

Brand-new eye-catching features will surely attract the attention and heart of all players. All wins award 15 coins paid out.

■ AMERICANA TWIN

The same bonus game features as the conventional Americana, plus an additional exciting feature—wins verified from both sides—and players are ensured of exciting play.

★ Miniature body, but big inside

An appealing, fascinating program, comparable to our large exported models—all incorporated in a small body.

★ Stop button

A new push-button system that never tires players despite many hours of play due to its light touch.

★ Easily removable modular sections

The use of easily removable and remountable modular sections add to overall efficiency and cost savings!

AMUSEMENT MACHINES

AMERICANA MARK V

810(H)x475(W)x415(D)
100/115/120/220/240V AC 50/60Hz 180W

● Powerful combinations!

These two domestic models have been selected from among the models that have already achieved outstanding success in overseas markets. They are specially fitted for the Japanese amusement business.

All 5 lines on "Dynamite" are awarded a chance at a jackpot. "Americana Mark-V" has also become a favorite in the domestic market due to its unique features.

These two models are characterized by advanced microprocessor functions supplementing their other innovative features.

The cabinet is stylish and sturdy with attractive art decor designs.

Mechanical performance has been improved, ensuring smooth reel rotation, and all vibrations have been eliminated when stopping and starting.

**Universal is also selling
centralized data control systems
for the best possible effective use of
our slot machines, etc.**

UNIVERSAL DATA CONTROL SYSTEM (No. 8200FX)

Intended for use at game corners, etc., the Universal Data Control System (UDCS) is designed so that its control computer instantly detects sales per game machine, time played, mechanical trouble, vandalism, etc. and provides various displays.

Additionally, after the end of the day's operations, the UDCS can print a daily business report.

By using the UDCS, you can accurately control the business efficiency of each game machine from day to day, and thereby achieve dramatic labor savings.

HOW TO USE THE UDCS

1. Turn power ON (for both the computer and game machines).
2. Preset the program cassette (floppy disk), and read the program into the computer by way of load control.
3. Replace the program cassette with the data-collecting cassette. (This step is not necessary in the case of the floppy system.)
4. The system starts when the RUN [RETURN] is input from the keyboard.

* For system starting time processing: Input the following items from the CRT.

Starting time Day Month Year

The entire system begins to work.

5. Real time monitor display functions:
 - 1) When pressing the [PF5] key on the keyboard, sales and accumulated time played

per game machine are displayed in a table on the monitor.

- 2) When pressing either the [PF1] key or the [PF2] key on the keyboard, sales, average time played and longest time played per game machine are displayed in a graph on the monitor.
- 3) Various malfunctions (coin-related, mischief, etc.) are also displayed on the monitor, whenever they occur.
6. After the end of the day's operations, the day's total data is printed out in the following manner:
 - 1) Read the data-collecting program into the computer from either the cassette or the floppy disk.
 - 2) In the case of the cassette, replace with the day's data cassette.
 - 3) When the printer has begun to work, press the [YES] key while confirming the date displayed on the monitor. Automatic print-out will follow.

DEVELOPMENT TO ORDER —A GUIDE

Japan's largest slot machine manufacturer, UNIVERSAL CO., LTD. has been engaged in the development and manufacture of micro computer controlled slot machines for many years.

Thanks to Universal's inherent technical knowhow, we can manufacture slot machines tailored to meet the most diverse customer requirements. We assure our customers that, should they order Universal slot machines, successful profit making is virtually guaranteed.

Join us at Universal in a partnership to garner a significant place in the slot machine market, by ordering our custom-made machines!
